Ordered list:

1. First item
  - a) 1st item 2nd level
    - (i) 1st item 3rd level
    - (ii) 2nd item 3rd level
  - b) 2nd item 2nd level
2. Second item
3. Third item

Unordered list:

- First level
  - Second level
    - Third level

# A frame with title only

Theorem

$$e^{i\pi} + 1 = 0$$

Proof

$$e^{iz} = \cos z + i \sin z$$

*therefore*

$$\begin{aligned} e^{i\pi} + 1 &= \cos \pi + i \sin \pi + 1 \\ &= -1 + i \times 0 + 1 \\ &= 0 \end{aligned}$$

Let's cite a paper by Amiot [2007](#) and another one by Bergh, Jasso, and Thaule [2016](#).

# Frames have no headline

<code>\Alegreya</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaExtraBold</code>	<b>Lorem ipsum dolor sit amet</b>
<code>\AlegreyaBlack</code>	<b>Lorem ipsum dolor sit amet</b>
<code>\AlegreyaMedium</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaSans</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaSansThin</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaSansLight</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaSansMedium</code>	Lorem ipsum dolor sit amet
<code>\AlegreyaSansExtraBold</code>	<b>Lorem ipsum dolor sit amet</b>
<code>\AlegreyaSansBlack</code>	<b>Lorem ipsum dolor sit amet</b>

**Alert!** A plain frame does not show the progress bar but it still appears in the progress bar of other frames unless it is placed after `\ThankYou`.

A ***STANDOUT*** frame can be used to focus attention

# Acknowledgements

This beamer theme is based in the Argüelles theme, originally developed by Michele Piazzai under the MIT license:

In combination with *plain*,  
it makes a nice thank-you slide!
